I can take care of my enemies in a fight. But my friends, my goddamned friends, they're the ones who keep me walking the floor at nights! - President Warren Harding Americans in the 21st century cite the relatively recent Watergate Scandal, and to a lesser degree the Enron Oil Scandal, as prime examples of modern governmental corruption. It is a widely held perception that these incidents, particularly the one bringing about the first resignation of an American president, caused the public to lose trust in federal institutions and political figures. However, the prototype for the breakdown of governmental fidelity lies in the early 20th century, a time in which the recent territories of the United States struggled to evolve from a lawless, Wild West culture. The federal government viewed its western resources as both unlimited and outside the grasp of the government. The leading oil barons, born and raised in the 19th century, were accustomed to federally-blessed land-grabs and easily obtained mining and lumber interests, often doled out to the social and financial elite under the guise of exploration. Federal interference was minimal in contrast to later decades, and the government itself was eager to conquer the West through large-tract farming, river management, mineral and timber development, not to mention the procurement of oil for a growing society as coal gave way to new types of fuel. The early 20th century was a time of sudden growth for the young American automobile industry, and of a military beginning to extend its reach around the...
