A Preglacial Tributary To Paint Creek And Its Relation To The Beech Flats Of Pike County, Ohio. By W. G. Tight. Reference is made in the preceding article, in this volume, on : The Pre-glacial and Recent Drainage Channels of Ross county, Ohio, on page 17, to the extension of the preglacial valley of the upper part of Paint creek to the southwest, at a point a little above Bainbridge. It was with a view to ascertain the course of this tributary to Paint creek that these studies were undertaken. The results of glacial action along the margin of the ice sheet are so varied and at times so unexpected that almost every acre presents some new and interesting features. This region, lying as it does just on the boundary line of greatest glacial extention, is no exception. While it presents some characters common to some other localities studied, yet there are many new features which add especial interest to this field. A very casual observation revealed the fact that this preglacial channel extends to the Beech Flats of Pike county and is in some way connected with their origin. A view from one pf the high Waverly hills at the junction of this valley with Paint creek would easily lead one to the conclusions stated by the author of the preceding article on page 18. So striking are the topographical features of this region that we find them mentioned in the earliest writings...
